Summary

25 years of age with 8 year's experience in the construction industry. I have experience with on site construction completing builders work ranging in small residential builds to huge multi million pound sites such as Longcross Studios and Battersea Power Station. I have a huge range of skills from years working on site, MEWP and Telehandler tickets, courses to run construction sites and also computer skills with AutoCAD and Asta training. Running successful meetings with clients and making important decisions to get the job completed. I got the experience to deal with clients such as Netflix and MBS. I have worked on high profile sites under Sir Robert McCapline, Wates and Overbury.
